

# Emergency Button

The Emergency Button is designed to instantly transmit an emergency signal when pressed, providing a reliable and immediate personal safety solution particularly suited for elderly individuals.

## **Crow - Where Experience meets Innovation since 1977**

Leveraging decades of expertise and advanced technology, Crow is redefining security for today and tomorrow.

Since 1977, the Crow Group has delivered intelligent, high-performance solutions for residential and commercial environments offering a comprehensive portfolio of cutting-edge control panels and versatile wired and wireless peripherals that make homes and businesses safer and smarter.

Our solutions serve customers worldwide through a robust global network of distributors, professional installers and central monitoring stations.

Building on its long-standing leadership in security, Crow now combines deep expertise in artificial intelligence, video analytics and cloud technologies to offer next-generation solutions for Security, Monitoring, and Telecare.

## **CROW's Emergency Button**

The Emergency Button instantly transmits an emergency signal upon activation. It features water-resistant construction and provides a red LED indication when triggered. The device can be securely mounted to a wall using the supplied tamper-protected bracket or conveniently clipped to the user's clothing with a belt clip, offering flexible installation and dependable personal protection especially for elderly users.

# Emergency Button

The Emergency Button can be securely mounted on a wall using the provided bracket, ensuring immediate accessibility in emergency situations while allowing easy relocation between rooms.

# Emergency Button

CROW 

A belt clip accessory enables the emergency button to be worn on clothing, providing quick and convenient access in times of need.

# Emergency Button

## Timeless Color Options

Available in sleek black or white to complement any interior.

# Emergency Button

## **Water-Resistant Design**

Water-resistant construction enables safe use in the shower and other wet environments.

## **Reliable Wireless Communication**

Secure wireless connection ensures alerts are transmitted without delay.

## **Long-Life Battery Operation**

Optimized for extended battery life with minimal maintenance.

## **Flexible Installation Options**

Ideal for under-desk, reception counter, or point-of-sale installation.

## **Compact and Unobtrusive Form Factor**

Small, discreet design allows it to blend seamlessly into professional environments.

## **Designed for Everyday Safety**

Ideal for personal protection, particularly for seniors and individuals requiring additional safety support.

## **Certified Performance**

EN 300220-2 , EN 62368-1

# Emergency Button

## Operation Method

Unique ID serial number – 32 bit

## Operating Temperature

-10°C to +55°C  
( 33 °F to 122 °F)

## Operational Voltage

3.0VDC

## Battery Life

Up to 5 years

## Frequency Band

ISM GFSK / OQPSK DSSS  
868 - 869 / 902 - 928  
Frequency And Output Power  
Accurding To Local Regulations

## Current Draw

< 1µA Standby current  
< 32±3mA Transmission current  
< 14 dBm Transmit Power

## Battery Capacity

245mAh

## Communication Protocol

Freewave2™ two-way ISM GFSK  
with 5 frequencies & LBT

## Power Supply

CR2032

## Compliance

EN 301489-1  
EN 301489-3  
EN 50130-4  
EN 300220-2  
EN 62368-1

## Integrations and Partnerships

Crow empowers organizations to develop fully integrated security solutions by leveraging advanced systems that enhance IT infrastructure and maximize the potential of Crow products.

With a robust **API interface**, businesses can efficiently manage thousands of Crow security systems, seamlessly embed functionality into their own applications, and integrate smoothly with CRM, billing, and other third-party platforms.

Real-time updates from the **Crow Cloud** keep software and clients informed and responsive, providing unparalleled control and flexibility across the entire security ecosystem.

**Discover how partnering with Crow can revolutionize the deployment of security and automation solutions.**
